PROFESSIONAL SUMMARY

I am in a transition process toward UX/UI design, integrating my experience in architecture, management, and working with real users. I bring analytical skills, information structuring, and an understanding of user needs to transform complex problems into clear and functional digital solutions. I am interested in being part of product teams where I can contribute from the research, definition, and design stages.

PROFESSIONAL EXPERIENCE

Co-founder and Designer **2022 - 2025**
Gold Sheep Group - Design and Digital Marketing

• Design of digital experiences and user-centered content for clients such as Trip Brasil, Trip Argentina, Ámbito Inmobiliario, and Kief Bioinsumos.
• Audience behavior analysis and strategy optimization.
• End-to-end coordination of digital projects in a remote environment.
• Translation of business objectives into digital solutions.

Real Estate Advisor and Administrative Assistant **2022 - 2023**
Century 21

• Personalized advisory in buying, selling, and rental processes.
• Deep understanding of user needs and pain points in the real estate sector.
• Participation in improving internal processes and administrative organization.

Participation in the Accessibility and Urban Mobility Committee
CAPBA 1

• Evaluation of projects under Universal Design principles.
• Application of accessibility criteria and barrier removal strategies.
• Spatial experience analysis from inclusive perspectives, incorporating autonomy and clarity as structural elements of design.

Founder – Mae Deco & Home **2020 - Present**
Own brand of home décor products sold through e-commerce and Mercado Libre.

• End-to-end product management (branding, e-commerce, logistics, and after-sales).
• Testing and iteration of product bundles and commercial strategies based on purchasing behavior analysis.
• Continuous optimization of the shopping experience in the online store and marketplace.
• Basic metrics analysis (conversion, inquiries, abandonment) to support decision-making.

EDUCATION

UX/UI Design Diploma – Coderhouse

• UX/UI Case Study – Homiq
Comprehensive digital product design project developed as part of UX/UI training.
Research, problem definition, information architecture, wireframing, and interface design.
Full portfolio: (Behance link)

Faculty of Architecture and Urbanism – UNLP
Advanced student, with 4 final exams and Final Graduation Project pending.

Fray Mamerto Esquiú School – City Bell
High school diploma with a specialization in Art and Visual Communication.

SKILLS

What can I contribute to a team?

- Conducting user interviews.
- Synthesizing insights and defining problems.
- Mapping current flows and identifying friction points.
- Basic functional documentation.
- Structural wireframes in Figma.
- Feedback-based iteration.

Tools: Figma, FigJam, Illustrator, Photoshop, CapCut, Trello, Notion, AI applied to design.

COURSES AND TRAINING

Assisted Pre-Professional Internship - *Architects Association, Accessibility Committee*
Team Leadership and Management – *Coderhouse*
Coaching and NLP (Neuro-Linguistic Programming) – *Pablo Cunsolo*
Body Language – *Pablo Cunsolo*
Real Estate Coaching – *La Central de Logros*

THE DESIGN THINKING PROCESS
